

ATCA Handles

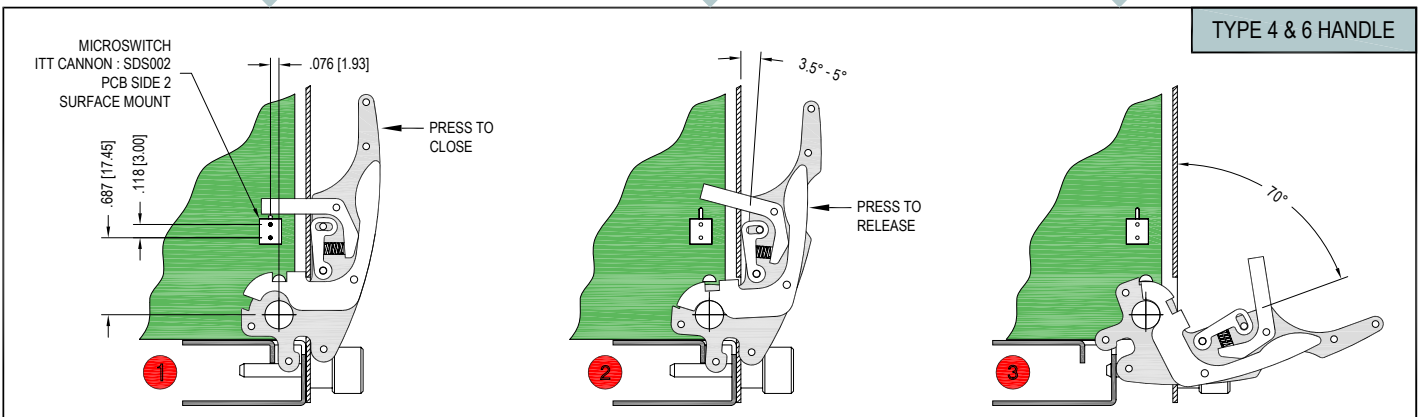

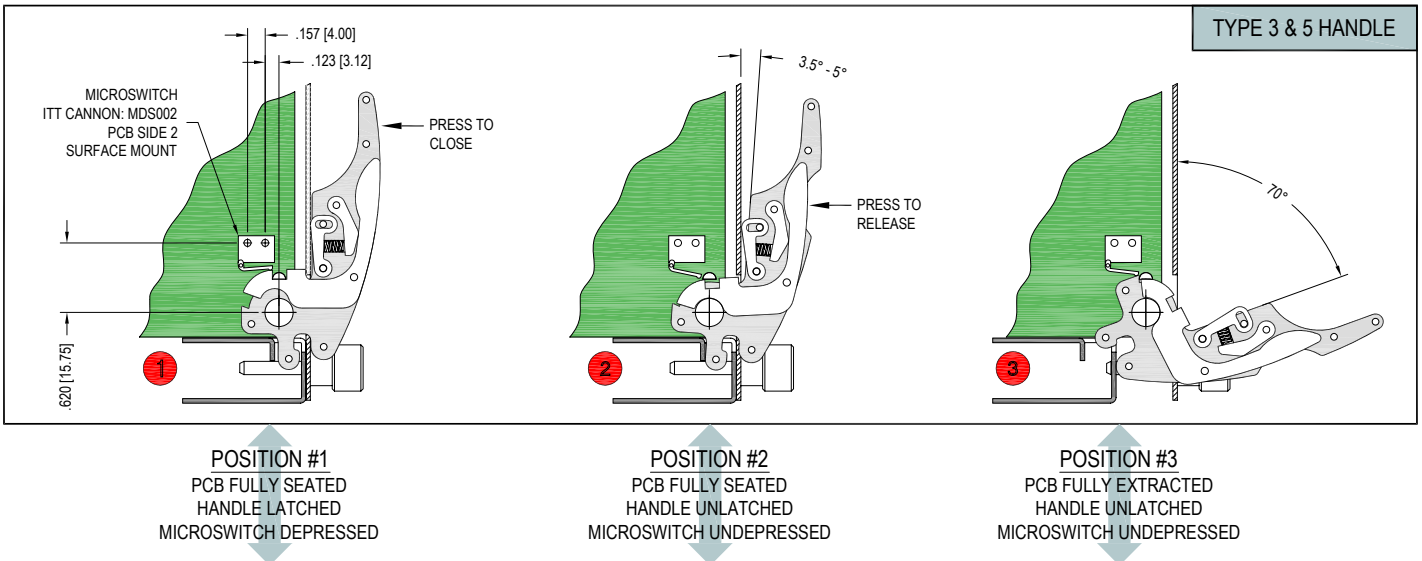

The standard ATCA ejector handle operates within the PICMG[®] 3.0 specification, providing latching security, hot-swap versatility and mechanical durability. Its unique design operates with a push button release and simple push to close. Handles are RoHS compliant.

ATCA EJECTOR HANDLE, TYPE 5 BLACK SHOWN

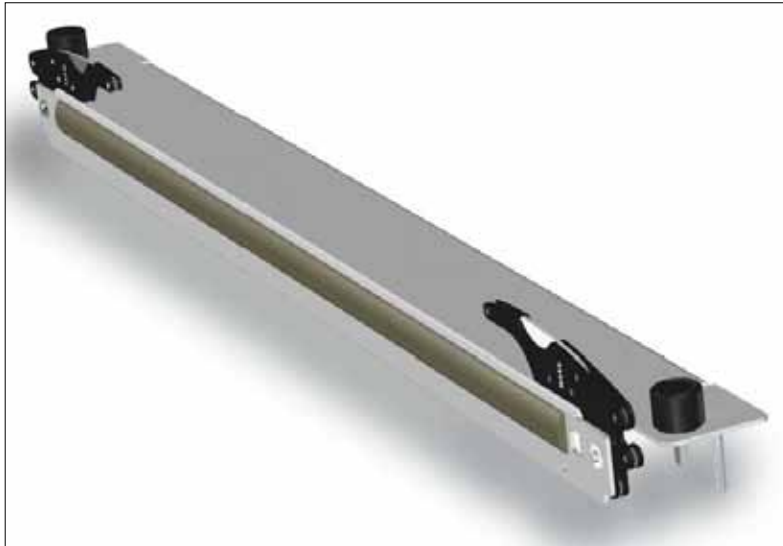

ATCA HANDLES		
DESCRIPTION	PART NUMBER	
ATCA EJECTOR HANDLE, TYPE 3 (BLACK)	P020-0000-3A (P020-B000-3A)	
ATCA EJECTOR HANDLE, TYPE 4 (BLACK)	P020-0000-4A (P020-B000-4A)	
ATCA EJECTOR HANDLE, TYPE 5 (BLACK)	P020-0000-5A (P020-B000-5A)	
ATCA EJECTOR HANDLE, TYPE 6 (BLACK)	P020-0000-6A (P020-B000-6A)

ATCA Handle & Hot-Swap Operation

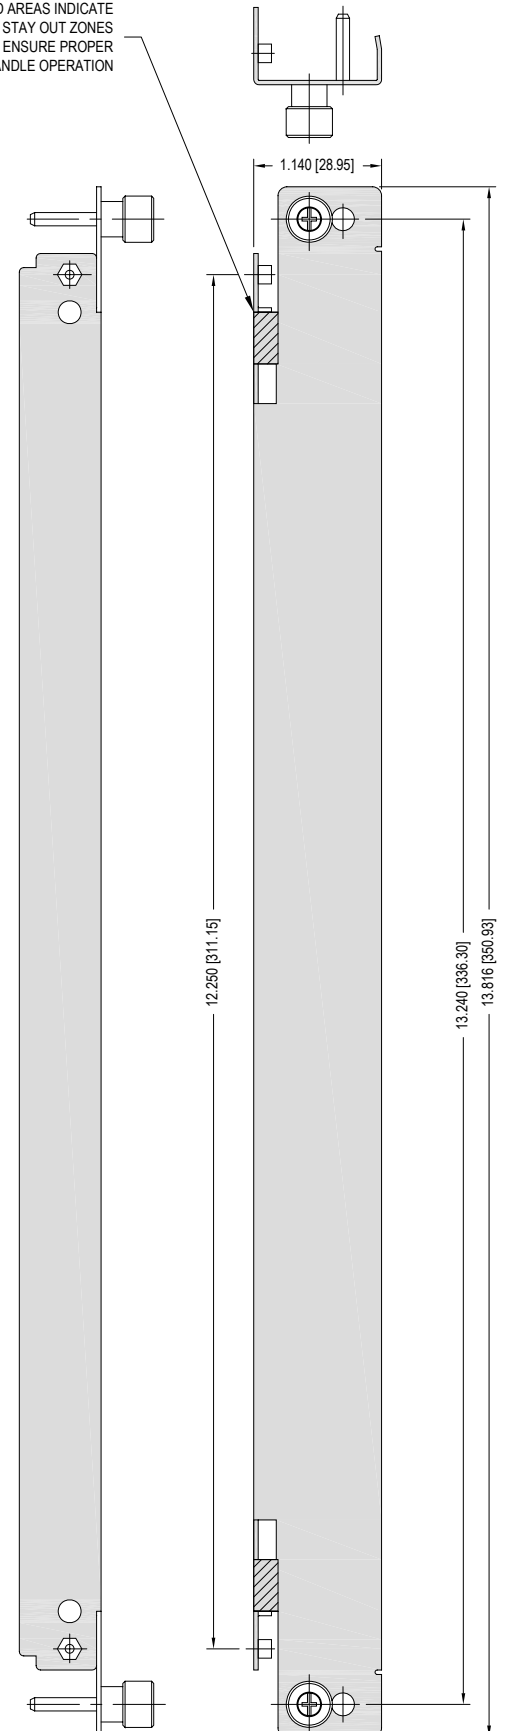

ATCA Panels

PICMG[®] 3.0 compatible ATCA panels and filler panels are constructed from 1mm thick 1010 steel nickel plated for corrosion resistance and electrical conductivity. Panels and all assembled components are RoHS compliant.
